

SPECIAL BLACK –  
HIGH COLOR PIGMENT BLACK

# MONARCH® 1300

MONARCH® 1300 pigment black provides standard high color jetness in automotive and industrial coating applications.

**Product Form:** Fluffy

## Application Information

### Liquid Coatings

MONARCH 1300 pigment black is aimed at liquid and powder coatings requiring standard masstone jetness such as those used in automotive applications. The pigment imparts a relatively strong blue undertone and level of gloss.

MONARCH 1300 offers relative ease of dispersion compared to other products in this range. The product should be considered when ease of dispersion is a key factor in product selection, such as when pigment selection is determined by older dispersion equipment technology.

MONARCH 1300 is a fluffy pigment black with a typical bulk density of 20 lb/ft<sup>3</sup> (320 g/L).

## Performance Comparison to Other High Color Pigment Blacks

## Packaging Options

Multi Unit	Intermediate	Bulk
25 lb paper	Not Available	Not Available
